

FEDERAL VOTING ASSISTANCE PROGRAM

DEPARTMENT OF DEFENSE
WASHINGTON, DC 20301-1155

September 17, 2007

Mr. Thomas E. Prince
Chairman
State Election Board
P.O. Box 53156
Oklahoma City, OK 73152

Dear Mr. Prince,

I would like to thank you for the work you and the state of Oklahoma have done over the past several years to promote and support the legislative initiatives the Federal Voting Assistance Program (FVAP) has recommended. The 2006 elections pointed out the importance of the states enacting these legislative initiatives. In particular, the provision of 45 or more days for ballot transit; electronic transmission of Federal Post Card Applications, blank ballots, and voted ballots; and, authorization for the state chief election official to implement emergency measures. States with these provisions were able to support a greater number of situations faced by our brave men and women serving in combat areas such as Iraq and Afghanistan, and other U.S. citizens worldwide. I would ask you also to consider alternative methods that these citizens could use to request their absentee ballots such as phone, email or by proxy, and utilizing digital signatures with electronically transmitted materials.

After reviewing Oklahoma's existing election code and procedures, I have identified two initiatives that the Oklahoma legislature might consider during the upcoming legislative session. These initiatives are discussed in detail with suggested wording in the enclosed legislative initiatives document. If these initiatives are enacted and signed into law, they would significantly help to facilitate the absentee voting process for Oklahoma's citizens covered by the *Uniformed and Overseas Citizens Absentee Voting Act (UOCAVA)*. Information available to FVAP indicates that there are 14,535 Uniformed Services members, an estimated 10,000 family members and approximately 42,000 overseas citizens that claim Oklahoma as their voting residence.

As you review the enclosed initiatives for possible inclusion in Oklahoma's 2008 legislative agenda, please do not hesitate to contact us for assistance. We can provide legislative wording that other states have enacted to implement similar measures and provide written or in-person testimony, if desired. We have come a long way in simplifying the absentee voting process since the enactment of the *UOCAVA*—let's continue our joint efforts to achieve the simplest possible absentee voting process while maintaining its integrity.

Sincerely,

A handwritten signature in black ink, appearing to read "J. Scott Wiedmann", is written over a horizontal line.

J. Scott Wiedmann
Deputy Director

2008 Legislative Initiatives and Suggested Wording

Oklahoma 2008 Legislative Initiatives and Sample Language

The Need for 45-Day Ballot Transit Time

The most persistent problem which continues to face Oklahoma military and overseas voters is the extremely short period of time these voters have to receive, vote, and return their absentee ballots in order to be counted. While electronic transmission of election materials offers an alternative to inadequate ballot transit time in emergency situations, the fact remains that insufficient ballot transit time through the mail continues to be the primary obstacle to the timely delivery of absentee ballots for those who request them. For Oklahoma, our *2006-2007 Voting Assistance Guide* states that local election officials mail out ballots approximately 30 days before an election. While we commend you for expanding the time between the state run-off election and the General Election, Postal Service statistics indicate that a **45-day transit time is needed** for absentee ballots sent through international mail or the military APO/ FPO (overseas) post offices. This round trip transit time is especially necessary because of the remote location of many military personnel and overseas citizens such as sailors and marines aboard ship, airmen and sailors at isolated tracking sites around the world, as well as Department of State personnel and citizen employees of American multinational corporations in remote areas. **Forty-three** other states have increased their ballot transit times to greater than 30 days.

Sample Language

For all elections, the official charged with the printing and distribution of ballots and election materials shall print as many absentee ballots as may be necessary as soon as possible after receiving the information concerning candidates and measures to be voted on at an election, and balloting materials shall be mailed not later than the 45th day before the election.

Electronic Transmission of Election Materials

Since the 1990 general election, faxing has proven to be a valuable alternative method for facilitating the enfranchisement of military persons and overseas citizens serving their country who may have otherwise been unable to vote. This initiative has helped to ensure that these citizens were not disenfranchised by allowing them to cast a ballot when they would not otherwise have been able to vote due to time and location constraints.

Throughout an election year cycle, various circumstances exist that require the need for this alternative procedure in order for citizens to vote. The basic concept of electronic transmission of election materials is to secure high-speed delivery of election materials to and from the voter and local election officials. Your support in developing the **acceptance of electronic transmission for all aspects of the process**, with proper controls, would cut the ballot transit time at least in half. This would reduce the major obstacle to voting absentee and allow local election officials more administrative flexibility in preparing election materials.

Although we realize that Oklahoma enacted legislation to provide for the electronic transmission of the FPCA ballot request, and for the electronic transmission of the blank ballot and acceptance of the voted ballot under certain limited circumstances, we encourage expanded use of this alternative to include the use of electronic transmission of the blank ballot and acceptance of the voted ballot on a regular basis, as an alternative method, not merely during certain limited circumstances.

Sample Language

An elections official may send blank ballots and accept voted ballots from eligible electors who are members of the United States Uniformed Services, merchant marine, or family members, or qualified electors living outside the United States via electronic transmission.
